What's New in the?

The application makes it possible to generate, edit and print Sudoku puzzles. It is possible to select the difficulty level to create the puzzle on and it is also possible to drag and drop numbers from 1 to 9 to any location on the Sudoku board. You can also generate Sudoku puzzles automatically, as well as to solve a Sudoku puzzle. Added the ability to print to a specified location on the hard drive, and to set the frame above all other opened windows (default/always). You can also

configure the Sudoku frame at your will, e.g. the font, colors, titles and other preferences. NEW: added the ability to resume any suspended process. NEW: added a new way to edit numbers. Now a player can deselect the numbers and use a mouse cursor to move them. NEW: added a configurable amount of time between two solved puzzles. NEW: added a new way of thinking about the number of cells that are displayed at a time. NEW: added a new way of thinking about solving a Sudoku puzzle. NEW: added a new way of thinking about the method of printing a Sudoku puzzle. Lowered the impact of the initial screen; now we have a "Normal" mode, a "Large" mode and a "Full" mode. [...] If it were possible, I'd create another feature pack for Sudoku and make it available for downloading at no cost, but that's not feasible because of the time involved. My intention is to slowly spread the ball. I hope the features will get you closer to solving a

Sudoku puzzle. I have also updated some of the latest 1.x or 2.x versions of my apps, such as SudokuGen - Sudoku Edition, SudokuGen Pro, Sudoku Creator, Sudoku Creator Pro, Sudoku Creator Kobo. If you have an app that hasn't been updated, please contact me. I want to keep this column short and concise, for the same reason. [...] There are no changes in this version. If you used my previous apps (v1.x or 2.x), please, go to the official site to update them. NOTE: I can't ensure that all my apps are up to date, as I have no control over the official sites. They may have been updated. Categories
